

Our motto is cooperation, not regulation

Mission Statement:

The Butte County Resource Conservation District is leading working landscapes and open space management in the county through unique and influential partnerships for the benefit of the citizens, the environment, and the economy.

Conservation Partnership Office:

The Butte County Resource Conservation District shares a unique partnership with the United States Department of Agriculture's Natural Resources Conservation Service. The BC-RCD strives to bring leadership and empowerment to local producers, while the USDA-NRCS strives to provide technical assistance and expertise. For more information, please visit our office located at: 150 Chuck Yeager Way, Ste. A, Oroville, Ca 95965

Conservation Planning:

The NRCS objective in conservation planning is the sound use and management of soil, water, air, plant, and animal resources to prevent their degradation and ensure their sustained use and productivity while also considering related human social and economic needs. Through the voluntary cooperation of a landowner, the NRCS will work hard to help fulfill your own objectives on your land.

Please, let us know how we can help you.
